### Description:

So what do you expect from a celebrity autobiography? Tales of an impoverished childhood and an unappreciated early career? Angst-ridden revelation? In Jay Leno's take on the genre, tales have only one purpose--laughs. This is a book of jokey anecdotes and humorous stories marking the comedian's progress to the top. The persona of the young Leno is not so different and just as likable as the one appearing nightly on television. Whether it is his mother's advice, his teachers' complaints, or the awkward situations he finds himself in (for example, standing before an Orthodox Jewish audience who have been mistakenly led to expect a Yiddish storyteller) Leno always sees the funny side. --This text refers to an out of print or unavailable edition of this title.

**Review** An amiable, mildly funny pastiche of anecdotes, most interesting for what it unfortunately avoids about the talk-show host's career. -- *Entertainment Weekly* --This text refers to an out of print or unavailable edition of this title.
