Description:

Now in striking full color, **Presenting Data Effectively, Second Edition** by Stephanie D. H. Evergreen shows readers how to make the research results presented in reports, slideshows,

dashboards, posters, and data visualizations more interesting, engaging, and impactful. The book guides students, researchers, evaluators, and non-profit workers—anyone reporting data to an outside audience—through design choices in four primary areas: graphics, text, color, and arrangement. The **Second Edition** features an improved layout with larger screenshots, a review of the recent literature on data visualization, and input from a panel of graphic design experts.
