Description:

Review "Tom Parker [aka Grover Gardner] captures the personalities of the travelers through individual vocalization and provides smooth, expressive narration. The listener is soon caught up in the adventures of these vivid characters as they struggle to survive . . . a rousing adventure." -- *AudioFile*

"Niven's style is such that you can be awed, then titillated, then amused all on the same page. . . . After more than thirty years, the story remains interesting, and the ideas fascinating. I highly recommend this audiobook, whether you've experienced Ringworld already or not. I enjoyed every minute." --SFFAudio.com

"[Parker-aka- Gardner] skillfully uses inflection and timing to heighten drama or highlight humorous details as appropriate. Parker (aka-Gardner) deftly brings to life Louis Wu and other members of the 'motley crew' . . . This is SF--and narration--at its best." --*Kliff* --This text refers to the edition.
