Description:

Review I am profoundly moved. I am as sincere as I have ever been in my lifetime when I tell you that this book that you produced is absolutely one of the finest contributions to womankind that I

have ever personally experienced. It is superbly written and I'm still feeling the spiritual, emotional connection to you and this incredible work. To say I was moved is grossly understating what I am feeling right now. I truly am overwhelmed. I could not put this manuscript down. --Dr. Marlene Roderiques, Psychotherapist

Believe me when I say I could not sleep at all last night. The thoughts of what I read constantly went through my mind. After reading the section that described the types of advertisements and parties that down low 'men' participate in, I didn't know whether to cry, scream or just puke! I believe this book will certainly enlighten others like me/us who had no real idea of this underground world. But, most importantly, I hope that this would be a profound 'wake up call' for those sisters who are out there putting their trust, literally their lives in the hands of any good looking brother that comes their way, just to have a 'man'. Lack of education and action on our behalf is literally killing us! This was certainly eye opening for me! --Brenda

Wow! What a book! A real eye opener, and I've never heard of down-low before. The book is very well written and planned out. It will connect immediately with the target audience in a way that few books do - and I have no doubts at all about that. I wish you great success with the sales of this book and that the purpose of it - that women will wake up and smell the coffee about the men they may be married to, and stick together as sisters. --Ruth

About the Author The Straight-Up Truth About The Down-Low was written by two women, who met on the Internet while seeking answers to their newfound reality. They had loved, trusted, and shared their lives with men who lived a lie...Together they vowed to dedicate their lives to helping other women who would find themselves victims of down-low men. Joy Marie's intent, by writing this book, is to make other women aware of the dangerous, promiscuous sexual practices that actually take place in the down-low lifestyle.
