Description:

Review I laughed, my dog howled.

This is the perfect book for anyone who owns a dog, has ever owned one, or knows what a dog is. These guys made me laugh out loud ☐ and captured my heart at the same time. The book is simply irresistible.

If everyone owned a dog, we would have world peace. If everyone reads this book, they will go and get a dog and we will have taken a big step in the right direction. So this book can save the world. It will definitely change your life.

Hy Conrad and Jeff Johnson must have been dogs in another life. Their wry and witty insights into the minds of dogs are downright uncanny. Things Your Dog Doesn't Want You to Know is hilarious and sensational.

STARRED REVIEW-"A delightful and amusing collection of comical canine "truths"...A whimsical delight for dog lovers everywhere, this book will charm and remind readers why they fell in love with Rover to begin with.

These entertaining authors know and love dogs and give them appealing voices...it's all about the stories.

At times poignant, at times hilarious, this canine tell-all will let even the most experienced dog owners in on the secret world of our best friends.

I read it with my whole family and everyone couldn't stop laughing.

The authors were able to really capture the goodness and innocence of dogs. You can't be mad at them when you see the special way they see the world and their own actions. All they want to do is please their owners... but sometimes their naive actions don't get the exact outcome they expected. And they can't wrap their heads around it. Just like us. LOL.

So, if you love dogs and enjoy humor, you'll love Things Your Dog Doesn't Want You to Know. I did.

Hysterically on point and sweet. I can see many of these things being thought by my own 4 legged family members. A great gift for the dog lover in your life.

The book is written from the point of view of the dogs, which makes it all the more funny. You get a rather comical look at what might go on in their brains.

What a charming and funny book this was. A very entertaining and light read. As a dog lover I found myself chuckling and nodding in agreement at some of the antics and views of the dogs

This is a cute book in how the author makes you think the dogs are talking to you and telling your their quips about life.

If you've ever wondered what your dog thinks about sharing his life with you and, if you're like me and have created your own "voice" for your dog already, you'll find this book is belly-laughing funny. I read it while stuck between flights at an airport and got a number of concerned looks from passengers hoping they wouldn't be sitting next to this crazy woman laughing hysterically while reading about dogs.

"This is the perfect book for dog lovers of all ages...Each dog has a distinct personality and you will find yourself wondering what your dog is thinking about. A+ for a fun, beautifully crafted book. " - **Maria's Space**

I think this is a very cute book and if you're the the type of person who would buy a book like this in the first place, then you'll probably like it a lot.

It was a funny, easy-to-read, laugh-out-loud book that dog owners will enjoy, yet dogs may have a cause of concern as now their secrets are out to us humans.

Not only was it funny, but you could pick and choose which little story you wanted to read, unlike a regular book where you have to go from beginning to end. I've picked it up countless times and read it over and over again, laughing each time. It would make a great gift for dog lovers too!
